

Purdue University
Veterinary Anatomic Pathologist in Animal Disease Diagnostic Laboratory

A Veterinary Anatomic Pathologist position will be available from April 1, 2024 to October 31, 2024 with the possibility of an extension. This position will be in the Animal Disease Diagnostic Laboratory (ADDL) and the Department of Comparative Pathobiology (CPB) at Purdue University College of Veterinary Medicine. Candidate will perform gross and histopathologic examinations of necropsy and surgical biopsy specimens, write associated reports, and provide diagnostic and health-related support and advice to veterinary clinicians, producers and owners. Candidate will fulfill diagnostics-related teaching assignments in the DVM, veterinary nursing, residency or graduate programs. Candidates who are only available for remote histopathologic examinations will be considered. The work schedule is negotiable.

DVM or equivalent degree with 3 years of necropsy and biopsy experience is required. Certification or eligibility from the American College of Veterinary Pathologists (ACVP) or European College of Veterinary Pathologists (ECVP) is preferred.

The College of Veterinary Medicine at Purdue University values, nurtures, and respects all members of its community and ensures an environment of inclusive excellence where all students, faculty, and staff are inspired and empowered to achieve their full potential.

Purdue University is located in West Lafayette, Indiana, a vibrant college town ranked as one of the top 10 college towns by wallethub.com. Purdue is within a short drive of both Indianapolis and Chicago.

Purdue University is an EOE/AA employer. All individuals, including minorities, women, individuals with disabilities, and veterans are encouraged to apply.

To be considered for the position, please submit both a cover letter and curriculum vitae to mruzicka@purdue.edu. Review of applications will begin immediately and will continue until the position is filled. A background check is required for employment by the University. If you have any questions regarding this position, please contact Dr. Kenitra Hendrix at gkh@purdue.edu.
